

# BUILDING COMPONENTS

**WARWICK STRUCTURES GROUP offers a wide selection of building components and accessories for whatever your project needs. From heavy industrial and high-end commercial structures to basic storage facilities, our selection of customized building components and accessories will ensure your project specifications are met.**

Our Rolling Mills have the capability to form multiple cladding profiles as well as C and Z shaped girts and purlins. Our computerized shears and brakes cut and bend the sheet metal to precise specifications. Each order is custom manufactured to your requirements, reducing the cost and time of installation.

From in-house inventory, or a quick turn-around on a custom build, our “components” team will work with you to find the right solution for your project.

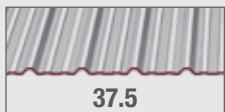

## APPLICATIONS (For a complete list, contact us at 1-844-6WARWICK)

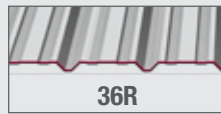

36

### CANSPAN 36 & CANSPAN 37.5

- Full 36” and 37.5” coverage options
- Added strength from full bearing rib at the lapping edge
- Industry standard for roof and wall cladding with 1-1/4” ribs & 1’ centers
- Ideal profile for match-up or retrofit jobs

37.5

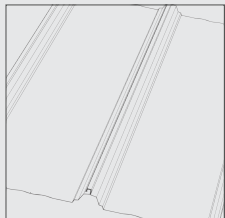

36R

### CANSPAN 36R & CANSPAN 37.5R

- Full 36” and 37.5” coverage options
- Small bearing surfaces allow for more insulation between cladding, girts, & purlins providing a better thermal break
- Less screws required
- Fastened inside deep rib to give hidden fastener effect
- Most popular industrial wall profile

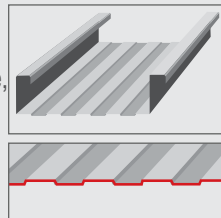

37.5R

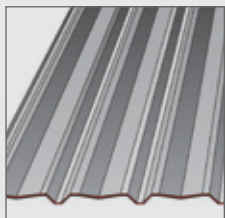

### TS-324 STANDING SEAM ROOF PANEL

- A heavy-duty structural roof system designed for use wherever water penetration resistance, expansion & contraction control, & load capacity are prime importance
- No exposed fasteners
- 24” wide panel
- Striated Pan
- Fabricated notch for endlap & punched holes

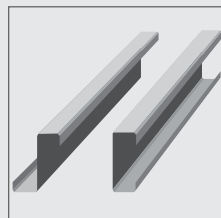

### SELF-FRAME BUILDING WALL/ROOF PANEL

- 3” X 20” panel
- 22ga. Inter-locking panel
- Industry standard for modular Oil & Gas Process Equipment Enclosures

### CANSPAN 36AR

- Full 36” coverage
- Small bearing surfaces allow for more insulation between cladding, girts, & purlins providing a better thermal break
- Less screws required
- Fastened inside deep rib to give hidden fastener effect

### GIRTS & PURLINS

- Distributes loads from the building’s surfaces to the main framing and the foundation which helps support cladding
- We offer:
  - C & Z Shapes
  - A wide range of sizes
  - Manufactured when you require it

Pre-painted steel standard stock colour options. CALL US to inquire about our extensive colour choices or have us visit your site for specific colour matches.

# BUILDING COMPONENTS

## CAPACITY

- Our team has the capacity to seamlessly execute numerous projects at accelerated schedules
- 57,500 SF Sheet Metal Plant
- 8 Rolling Mills
- 13 Brakes from 48" to 24' long
- 5 Shears from 4' to 12' long
- Numerous other fabrication equipment

## FEATURES

- No orders too large or too small
- We supply to 3rd Party clients
- All cladding profiles available in Galvalume, Galvanized and baked-on enamel finishes – in a variety of colours
- Cladding can be rolled from 22, 24, 26, 28 gauge material
- All Silicon Modified Polyester 8,000 and Premium 10,000 series, or equivalent paint colours available by order
- CSA A660 Certification of Manufacturers of Steel Building Systems
- CSA W47.1 Certification of Companies for Fusion Welding of Steel

## VALUE ADDED BENEFITS

### Free Site Visits

We will visit your site to match colour specifications and get a full scope of your project needs

### Tailor-Made to Your Needs

All orders are custom cut to your exact requirements ensuring project costs are lower by not paying for unused material & reducing site labour

### From Concept to Completion

In-house Sales, Estimating, Project Management and Engineering teams work with your project specifications

### Ready When You need Us

Colour matched flashings and accessories are in stock or readily available to meet your deadlines

### Alberta-Made

Manufactured in Alberta ensuring a shorter lead and delivery time

**CALL US TO GET A QUOTE, SCHEDULE AN APPOINTMENT, OR DISCUSS ANY OF YOUR BUILDING COMPONENTS & ACCESSORIES NEEDS.**
